WE MANUFACTURE YOUR LOGISTICS

#2

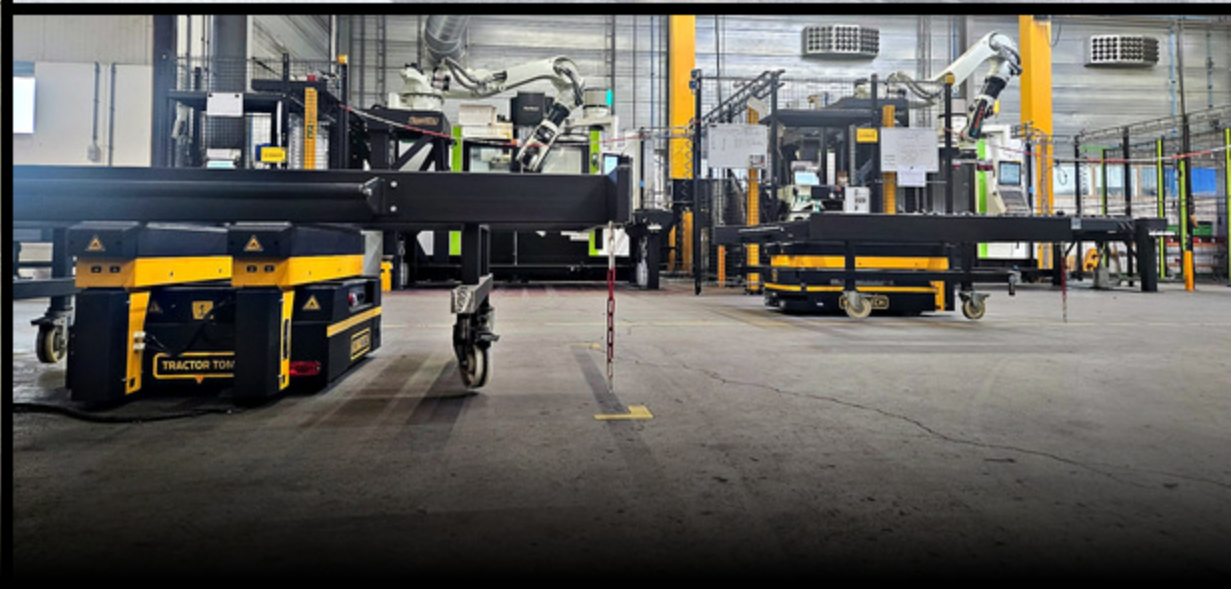

From movement to automation:

What needs to be transported?

THE LOAD ITSELF

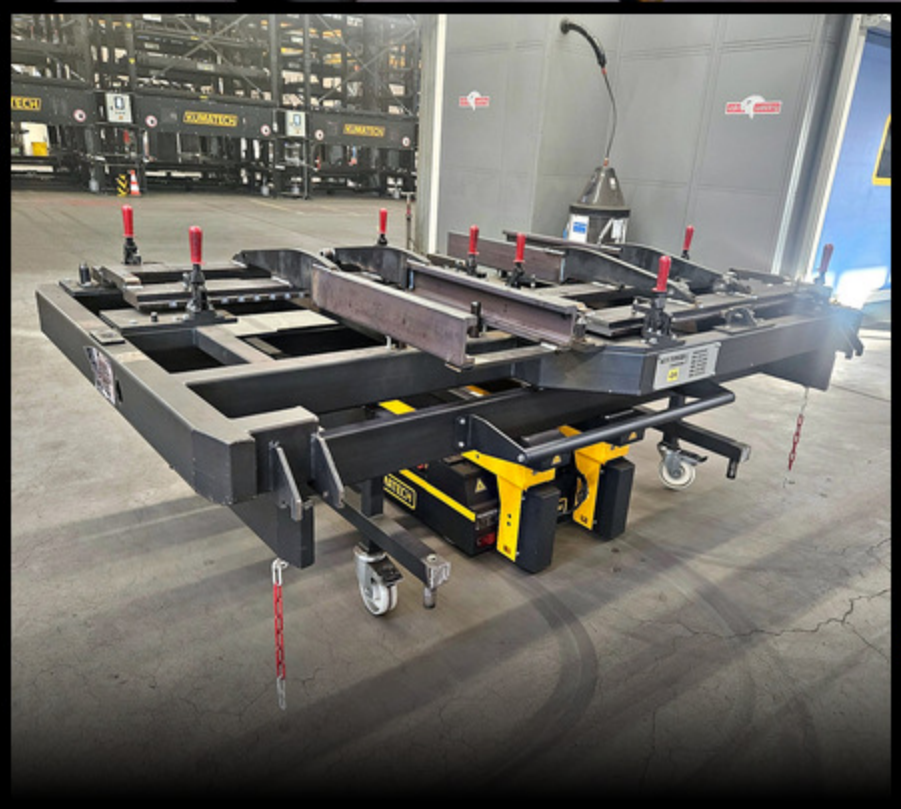

Weight and dimensions

Different loads place different demands on transport.

LOAD CARRIERS

Carts, (welding) jigs, pallets etc.

Every carrier calls for
a different approach.

PRESENTATION AND PICK-UP

From the floor or at height

Different heights, different
ways of picking up.

The right automation doesn’t start with the vehicle,

but with what needs to move.
