

### Fully automatic stacking and destacking

Internal logistics is a huge and hidden cost item for many companies in the annual figures. Logistic and machine operators continuously move goods from A to B, while these actions are not reflected in the added value of a product. So it's time to automate these actions with an affordable solution.

The KUMATECH pallet dispenser stacks and destacks empty pallets one at a time. All pallets are handled from floor level. It automatically lifts/lowers the entire pallet stack to easily allow you to insert a new pallet at floor level using a standard pallet Jack. A touch panel is used to operate the machine.

KUMATECH, located in Bakel, is specialist in the construction and development of machines for automated internal logistics. The company was founded in 2017 by sister company Kuunders Technoworks after a solution was developed for the logistical drama behind the laser cutter.

The KUMATECH pallet dispenser is CE-marked, which is your guarantee for a machine manufactured in conformity with the strict requirements of safety, health and environmental impact.

#### Your benefits with KUMATECH Pallet dispenser

- No more manual pallet lifting
- Space saving and a tidy workplace
- Optimised pallet flow
- Improved work environment
- Reduced pallet costs
- No manual pallet handling
- Only 230 Volt power supply needed
- Powder coating finish
- Always available
- Reduced handling time spent per pallet
- Fewer back injuries, jammed fingers and feet
- Less truck driving
- LEAN – increased efficiency with less resources
- Easy button control
- Easy integration with AGV possible
- Multiple pallets possible (1200\*800\*150 / 1200\*1000\*150mm)

#### Easy integration with KUMATECH "Tractor Tom or Pallet Jack" AGV's

The pallets can be loaded and removed in the Pallet Dispenser not only by hand, but also automatically with the Kumatech AGV's.

#### Manufacturing machines to make internal logistics smart and lean

The mission of KUMATECH is: "Manufacturing machines to make internal logistics smart and lean". KUMATECH offers an innovative and qualitative solutions for logistics. Our slogan in developing the different building blocks is "Simplicity in complexity"
